- D -

- Small size 0603
- Lead-free and compliant with the European Union RoHS Directive (EU)2015/863
- Fast tripping resettable circuit protection
- Surface mount packaging for automated assembly
- Agency Recognition: UL、TUV

 $I_{H}$ =Hold current: maximum current at which the device will not trip at 25°C still air.

IT=Trip current: minimum current at which the device will always trip at 25°C still air.

V<sub>max</sub>=Maximum voltage device can withstand without damage at rated current.

I<sub>max</sub>=Maximum fault current device can withstand without damage at rated voltage.

 $T_{trip}$ =Maximum time to trip(s) at assigned current.

Pdtvp=Typical power dissipation: typical amount of power dissipated by the device when in state air environment.

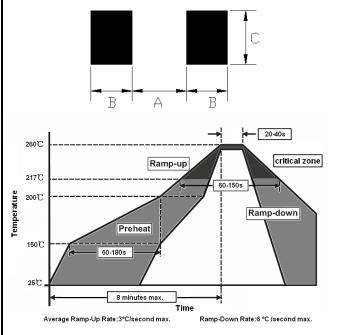

R<sub>min</sub>=Minimum device resistance at 25°C prior to tripping.

R<sub>1max</sub>=Maximum device resistance measured in the nontripped state 1 hour post reflow.

Part Number –	(mm)	(mm)	(mm)		
LP-TSML260	0.80	0.60	0.80		

\* Recommended reflow methods: IR, vapor phase, hot air oven. Notes:

- If reflow temperatures exceed the recommended profile, devices may not meet the performance requirements.
- Devices are not designed to be wave soldered to the bottom side of the board.

#### **Package Information**

Tape & Reel:5000pcs per reel.

Effectivity: Reference documents shall be the issue in effect on the date of invitation for bid.

Caution: Operation beyond the rated voltage or current may result in rupture electrical arcing or flame.
